Specifically for use on healthcare surfaces

Viraclean® is your best infection prevention defence from SARS-CoV-2 (COVID-19).
See our new label claims below.
Viraclean® is the result of years of intensive research into advanced cleaning and disinfecting technology from Whiteley Medical.

The Viraclean® label lists that it is proven to kill:

✔ Acinetobacter
✔ Candida albicans
✔ Coronaviruses including SARS-CoV-2 (COVID-19)
✔ Enterococcus faecalis (VRE)
✔ Escherichia coli (E coli)
✔ Hepatitis B Group virus
✔ Herpes Simplex virus
✔ Influenza virus
✔ Klebsiella pneumoniae (CPE/CRE)
✔ Proteus vulgaris
✔ Pseudomonas aeruginosa
✔ Salmonella choleraesuis
✔ Staphylococcus aureus (MRSA or Golden Staph)

Independent Test Reports available on request.

Viraclean® and V-Wipes have been proven to reduce the risk of environmental VRE contamination when used as part of a validated single stage cleaning/disinfection process, compared to a three stage process using a chlorine based disinfectant.*

*Please see: Friedman et al., Am J Infection Control 2013:41:227-231
Viraclean® can be used for both cleaning and disinfecting, demonstrating beneficial versatility for the healthcare and associated environs. Complex cleaning and disinfecting procedures can be instantly simplified by using Viraclean®!

**Viraclean®:**
- Preferred hospital grade disinfectant in Australia and New Zealand
- is non flammable
- is suitable for use on healthcare surfaces
- does not contain chlorine or oxidising biocides
- will not cause staining on fabrics or carpets
- has a neutral pH
- is friendly to metals (non corrosive)
- has a mild lemon fragrance
- suitable for use in both dirty and clean conditions

This product is not intended for use on therapeutic devices. Instrumax® Pink is available as an Instrument Disinfectant Low Level for use in disinfecting non critical medical devices.
